M964108-0020A

M964109-0020A

GENERAL DESCRIPTION:

Offset vacuum breaker tubes can be used in order to allow the flush valve body to fit in front of grab bars that are installed above the bowl. 1-1/2" & 2" offset available. Tubular brass construction. Includes vacuum breaker bladder and coupling nut.

Can not be cut from the top. Not for use with Selectronic® flush valves.
